

# Aluminium Internal Doors & Screens

Choice of 8 glazing and/or panelling options - Toughened glass as standard - Suitable for domestic & commercial market

Get a clear picture of the glazing options for your door...

Choose from a range of glazing (and panelling) options to customise your internal door just the way you like it.

Clear - Single Glazed (6mm or 8mm)  
Clear - Double Glazed (18mm)

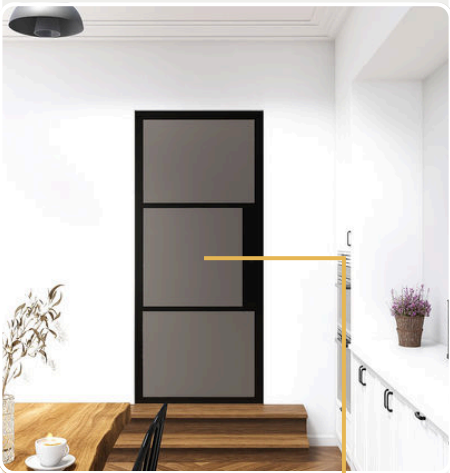

6mm or 8mm as standard

This panel shows a black-framed door with clear glass. The background is a bright, modern interior with white walls and a wooden table. A yellow line points from the text '6mm or 8mm as standard' to a circular inset image below.

Satin - Single Glazed (6mm)

Additional cost to be applied

This panel shows a black-framed door with satin-finished glass. The background is a bright, modern interior with white walls and a wooden table. A yellow line points from the text 'Additional cost to be applied' to a circular inset image below.

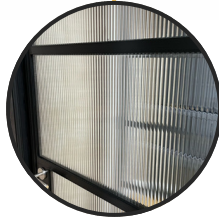

Reeded - Single Glazed (4mm)  
Reeded - Double Glazed (18mm)

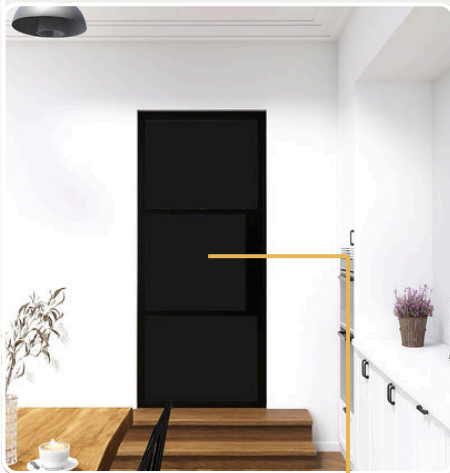

Additional cost to be applied

This panel shows a black-framed door with reeded glass. The background is a bright, modern interior with white walls and a wooden table. A yellow line points from the text 'Additional cost to be applied' to a circular inset image below.

Panelling (8mm or 18mm)

Additional cost to be applied

This panel shows a black-framed door with solid black panelling. The background is a bright, modern interior with white walls and a wooden table. A yellow line points from the text 'Additional cost to be applied' to a circular inset image below.
